A Unique Idea of Learning

In this highly competitive world, the way in which education is imparted and received, has changed completely. Today, it is more important to adopt a definition of education that is not just confined to acquiring facts and formulae from prescribed course books. It has to go much beyond that. Only those, who keep their inquisitiveness to acquire a more complete and applicable form of knowledge alive, will be empowered in the true sense and are prepared to remain ahead in the increasingly competitive world to come.

At SBEM, we develop and practice the concept of holistic learning. Our aim is to help students find real purpose and meaning of all that they learn. This learning that goes beyond theoretical knowledge is achieved by connecting the lives of our students to their surrounding community, nature and most importantly their own self. We place equal emphasis on experiential & observational learning, driven by a belief that this will aid in bringing out the inherent and latent abilities of students. The arrangements of tours on regular intervals, annual day celebrations, dance, storytelling, debate, quiz, craft and drawing competitions also helps a new side of learning and a personality in students that is beyond academics.

We are confident that this approach and the mentioned initiatives will ensure that when it is time for our students to face the growing global competition, they will do so well and transform challenges into opportunities to gain enduring success.

"We are the best and we are going to get better"

We know that the best way to develop strong resilient students, is to allow them to explore, create, experiment, grow, achieve and express themselves in a safe, positive and encouraging environment.

Imagine, Aspire and Achieve - this is the vision for all our students here at the SBEM school and indeed, for all of us, associated with the institution.

Our Inspiration

Late Shri Shantaram Bhat

Late Smt. Sulochanaben Bhat

We are really grateful to the noble personalities like Late Shri Shantaram and Late Smt. Sulochanaben Bhat who inspired us through their hard work and dedication that a person can make possible all the impossible task.

Our Dreamers

Shri Nootanbhai Bhat

Smt. Vishwaben Bhat

"Not just a school, but an institution with heritage, tradition and history. We brighten your child's future."

**Education is the
most powerful tool you
can use to change the world.**

- Nelson Mandela

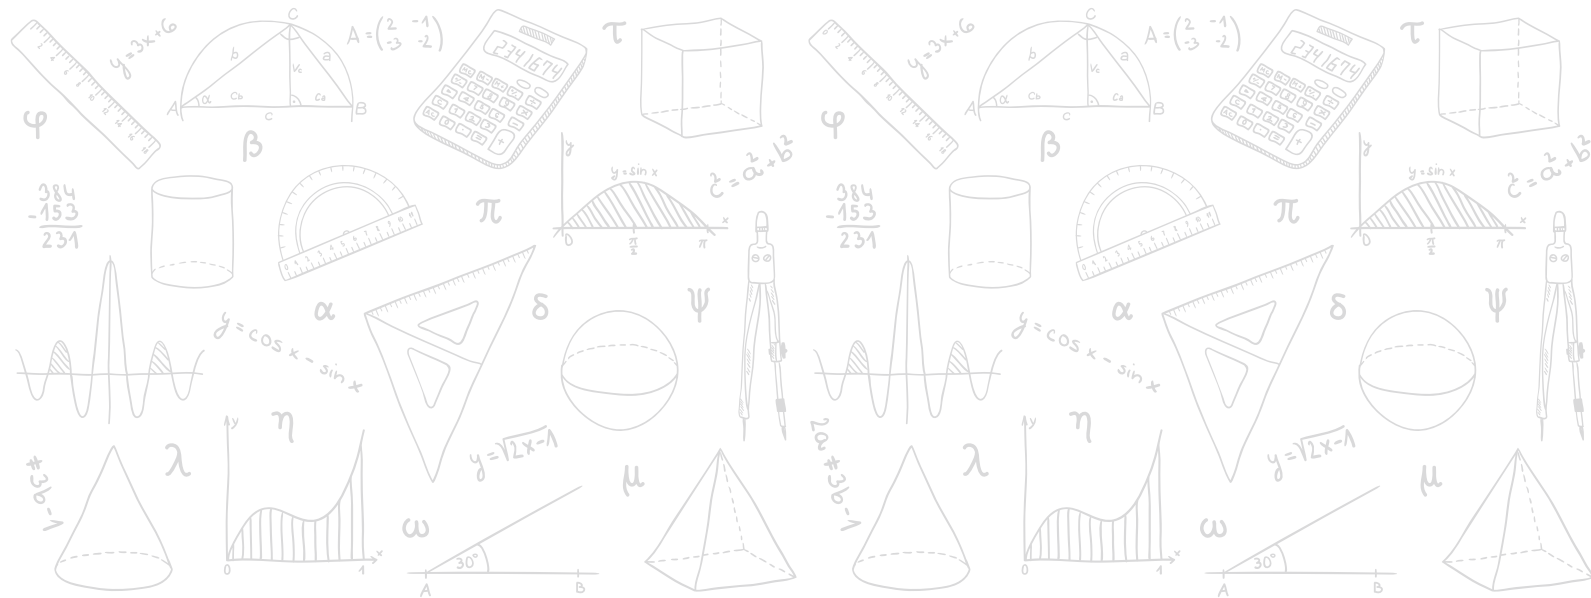

Empowering Children Drives Us

Choosing a school for a child is the most important and well thought-out decision in the life of any parent. We at Shree Shantaram Bhat English Medium School (SBEM) want to make choosing easy for you by offering an environment your child will flourish in. We believe that a child's overall growth includes the academic, social, physical, mental, emotional and most importantly the moral training that a school imparts and that's what we are famous for. SBEM School is proud of its excellent reputation in the community. We strive to maintain the same quality throughout our programmes and this reflects in the overall approach of students towards their life.

Our Legacy

Mota Kelavani Mandal was established in 1959 with a view to provide educational opportunities in Mota (Bardoli). Despite old conventions, we have been able to expand the horizons of our school in Gujarati and English Mediums. Today our school is widely admired in the state of Gujarat. We, with due modesty, assert that we have achieved a standard of accomplishment in education that is distinctive, unrivalled and beyond compare.

From the Principal's Desk

"The task of the Modern educator is not cut down jingles, but to irrigate deserts"

– C.S Lewis

Dear Parents,

The New Millennium has brought in its wake an array of global changes which were unheard before. This situation demands readiness to face changes.

'Humanism' the over-arching philosophy of our time, translates the child-centred approach in education. In this child's need, interests and play activities and self-confidence assumes tremendous importance.

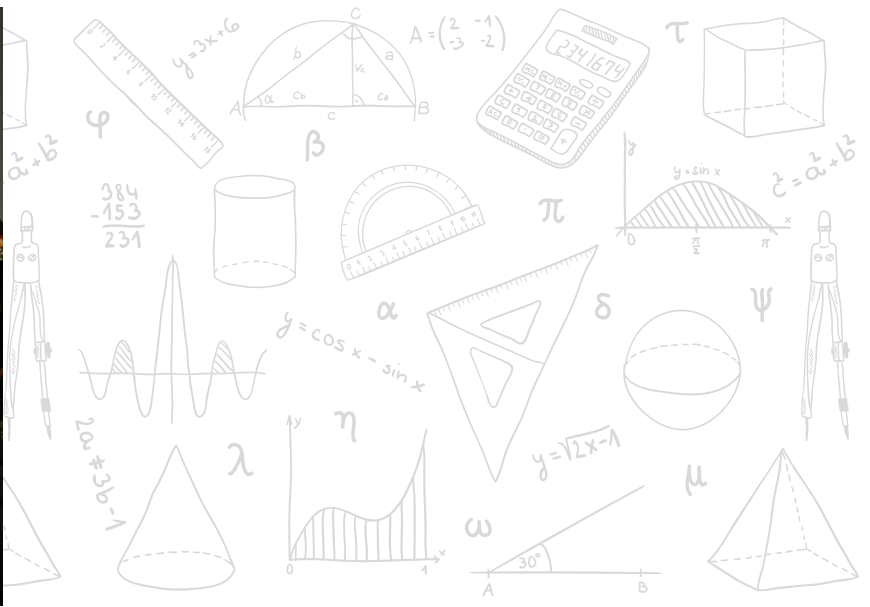

Today's child no longer relies only on being told about various phenomena. He is a child with a multi-faceted persona, a child of the technological age. He has his own perspectives, ideas and understanding and often argues before he is convinced. Exposure to the world-wide web and the hard realities of today's world have made him more mature.

Based on all the tents, the maxim of the school is the learning activities are all child-centric. The school therefore provides ample opportunities in all spheres of learning for the child to emerge as a wholesome personality, ready to face the challenges of life.

Thanking You,

Yours Sincerely,

Dipika Desai
Principal, SBEM School

Matchless Features

- Values and Character Building
- Emphasis on Practical Work
- Extra Tutorials for Slow Learners
- Best Teacher-Student Ratio
- Active Participation of Parents and their Wards
- Family Atmosphere

We take our sports seriously

At SBEM, we believe that sports form an integral part of a child's growth and well-being. The school provides playing equipment required for various sports and also organizes several games for students' development. It is a matter of immense pride for us that many of our students have won prizes in several state-level and district-level sports competitions.

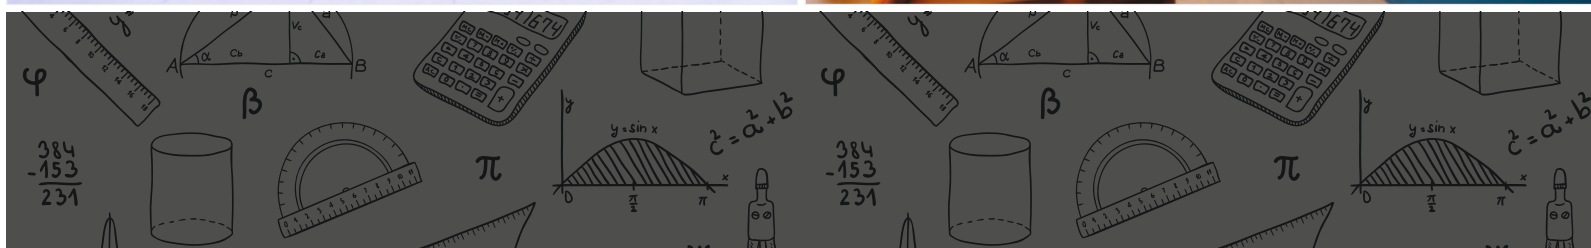

Seminar Hall

Art Gallery

Infrastructure

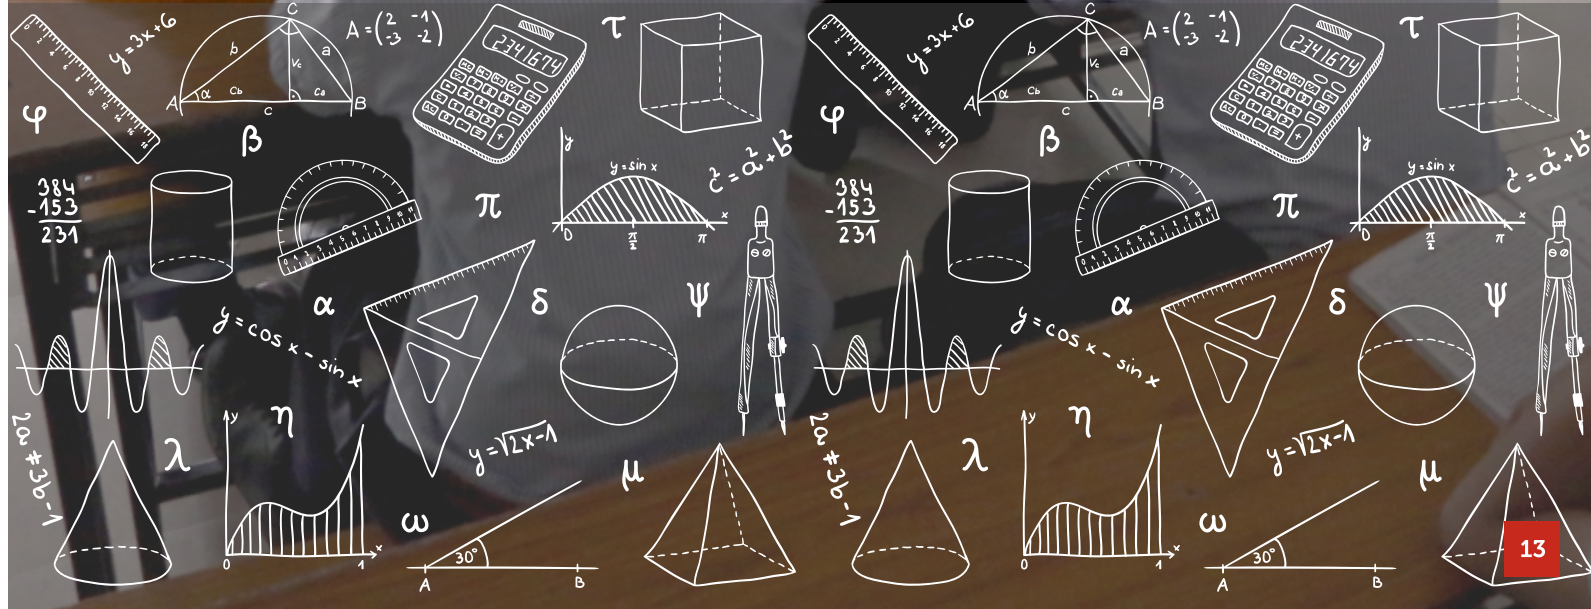

- Well Updated Library
- Vast Green Surroundings
- State-of-the-art Computer Lab
- Advanced Science (Physics, Biology And Chemistry Lab)
- Elaborate Dining Hall
- Separate Hostel Facilities for Girls and Boys
- Water Purification Plant
- Elementary School Playground
- Art Gallery
- Seminar Hall

**Tell me and I forget.
Teach me and I remember.
Involve me and I learn.**

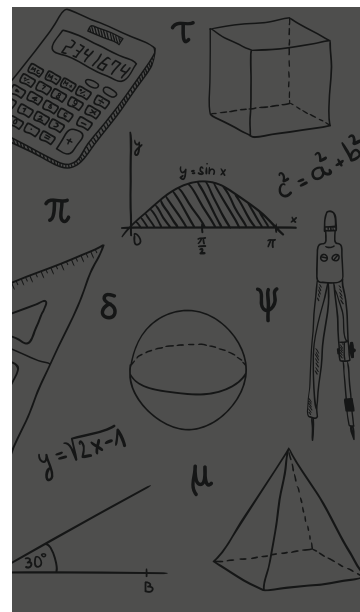

- Benjamin Franklin

Curriculum Design

At SBEM, the curriculum is designed to suit each child's needs. After all we understand each child has a different grasping power.

The following are the subjects and activities designed specially by keeping each and every student in mind.

Subjects

- Languages
- Mathematics
- Environment/Science
- Computers
- Arts
- Moral Education
- Aerobics and Yoga
- Music
- Drama
- Physical Education

Activities

- Prayer and Meditation
- Sports, Games and Drill
- Story and Action Songs
- Free Play
- Craft and Drawings
- Experiment and Observation
- Tours and Picnic
- Gardening
- Exhibition
- Project Work
- Self Study
- Classical Dance
- Karate
- Aerobics

Extra Curricular Activities

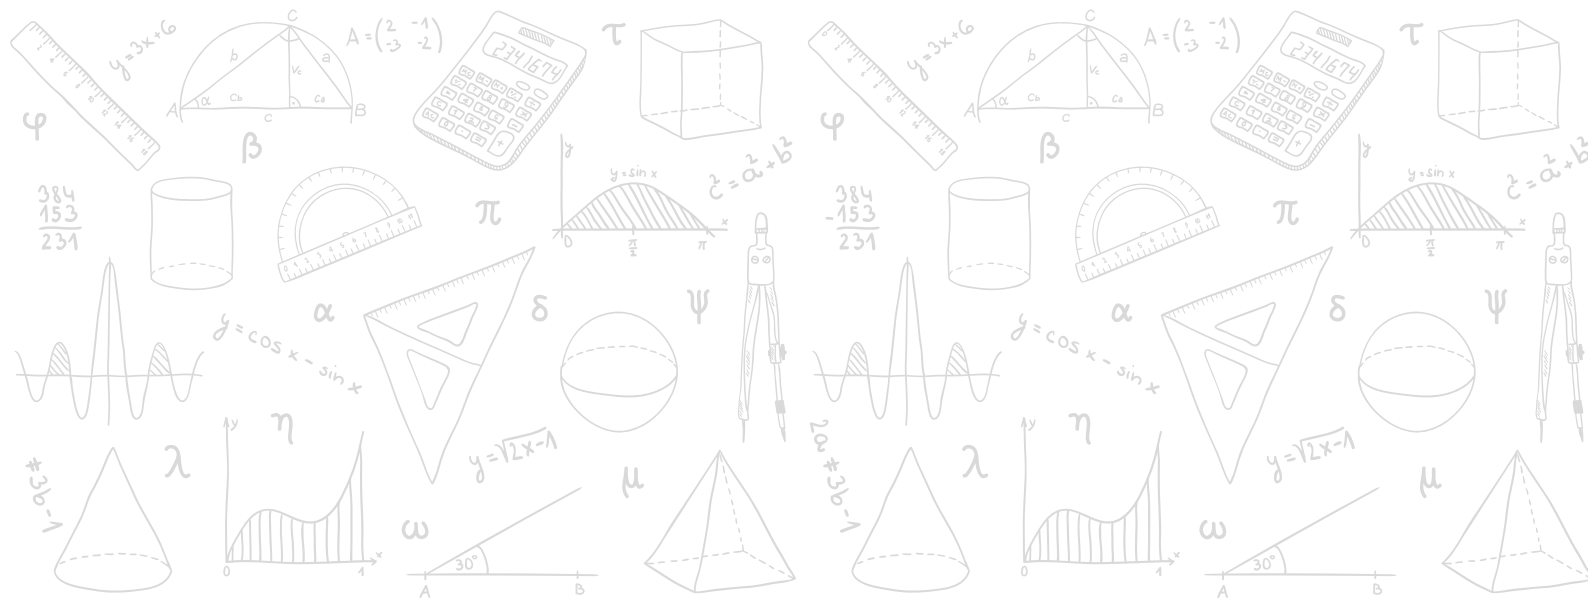

- Debates & Elocution
- Quiz Competition
- Classical Programmes
- Hindi Exam (Rastrabhasa)
- McMillan Exam for Languages, Maths & Science
- Environmental Programmes
- Nature Camps
- Science Festivals
- Olympiad Exams
- Nature Camps
- Field Trips
- Study Tours

Project Work

Children collect information on the given project with the help of the teacher. They prepare an exhibition of the given project.

Hostel Facilities

Special hostels have been appointed for outstation students. Our hostels provided a safe and secure haven and are a home away from home. The hostels offer a comfortable, organized and caring environment which fosters bonding and brotherhood amongst peers.

The hostel warden helps students maintain a regular timetable from 6 am to 10 pm and medical facilities are available round-the-clock to facilitate any emergencies or unforeseen circumstances. The common room is well-equipped with recreational activities like television, indoor games, etc.

Boys Hostel

Girls Hostel

Play Ground

Dining Hall

Our Library

The school has an excellent library, with more than 10,000 books appropriate for the age and interest level of students from KG to 12th standard. The beautiful interiors of these libraries, the serenity within and the large number of books stacked neatly are too inviting for students.

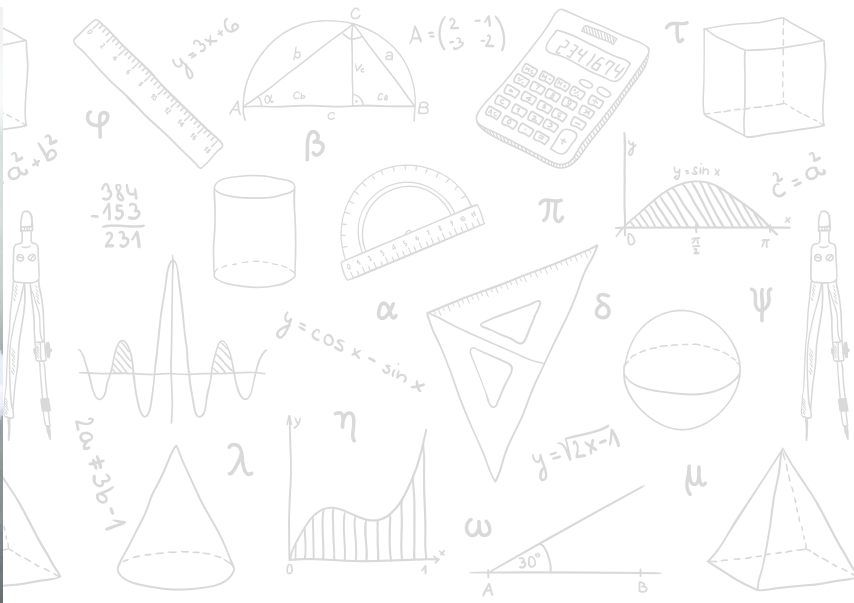

**Education is not learning
of facts but the training
of the mind to think.**

- Albert Einstein

Higher Secondary School Certificate

A group of students in white lab coats are working in a biology laboratory. They are using microscopes on a table. One student in the foreground is adjusting a microscope, while others are looking through the eyepieces. A DNA double helix diagram is visible on the wall in the background.

Our Science Laboratories

Our science department consists of three subject areas: Biology, Chemistry and Physics, and each have their own separate suite of laboratories with modern equipment. We also have teachers with special training to help our students.

Features

- State-of-the-Art Laboratories
- Up to date laboratory equipment
- Dedicated science teachers

Little Heart Corner

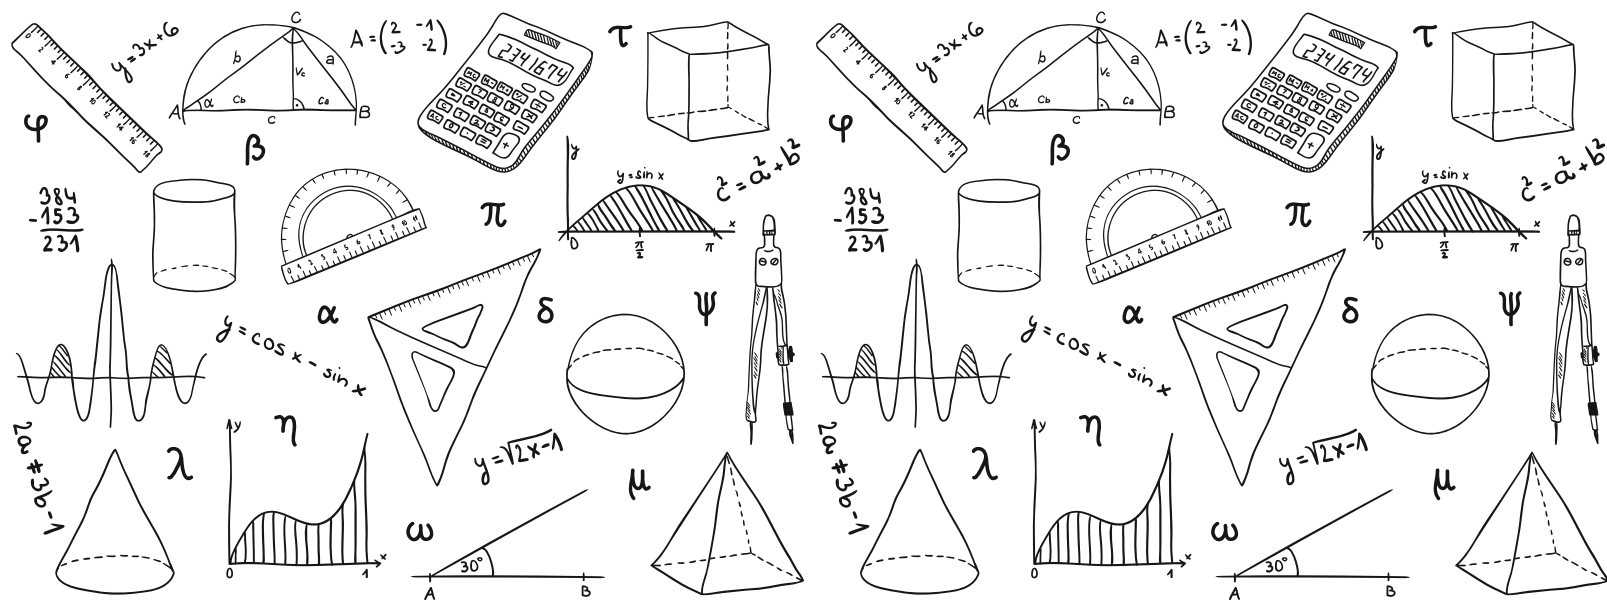

Our little hearts showcasing inherent talent with joy and confidence through their innocent expressions and heart-warming performance.
